

Certificate of Security Achievement

This certifies that:

Jeremy Curcio

has completed the Path:

AI Enablement and Security for the Enterprise

AI Enablement and Security for the Enterprise gives your workforce the understanding, habits, and reinforcement they need to use AI with confidence in everyday work. Instead of treating AI as a novelty or a risk to fear, this program shows people how to make it useful in ways that hold up when work becomes visible, consequential, or shared.

Path Duration:
1 hour, 27 minutes

Completed On:
June 23, 2026

Certificate No: 000050-004846
