Certificate of Security Achievement

SECURITY JOURNEY

This certifies that:

Antonio Zrinusic

has completed the Path:

Security Foundations for Project & Quality Management

This path provides non-developers—including product managers, QA specialists, and account management teams—with a comprehensive understanding of application security. You will learn to articulate core security concepts, recognize the necessity of threat modeling, and understand how to integrate security requirements throughout the software development lifecycle.

Path Duration:
3 hours, 3 minutes

Completed On:
September 29, 2026

Certificate No: 001242-000110
